

Fleure on profile 3L Bronze

Spot Fleure

[NL]

Dit fijne tulpvormige spotje is ideaal om meerdere kleine accentjes te leggen in uw interieur. Door de fijne lichtbundels verkrijgen we heel mooie contrasten tussen licht en donker. Deze contrasten zorgen voor de sterke sfeer, vergelijkbaar door te werken met vele kleine lampenkapjes of kaarsen. Het is wel aangewezen om voldoende spotjes te nemen, want 1 lampje van 20 Watt geeft 2,5 keer minder licht dan een standaard lampje van 50 Watt. De volledige Fleure-collectie kan optioneel worden uitgerust met de Narcisse-blaadjes. Ze dienen wel samen te worden besteld, omdat ze geplaatst worden bij de assemblage.

[FR]

Ce petit spot en forme de tulipe est idéal pour créer de petites touches lumineuses dans votre intérieur. Ses fins faisceaux de lumière produisent des contrastes très subtils entre la lumière et l'obscurité. Ces contrastes procurent une atmosphère forte, semblable à celle qu'on obtiendrait avec de nombreux petits abat-jour ou des bougies. Il est conseillé de prendre suffisamment de petits spots, car une ampoule de 20 watts fournit 2,5 fois moins de lumière qu'une ampoule standard de 50 watts. La collection complète Spot Fleur peut être agrémentée des feuilles Narcisse. Il convient alors de les commander ensemble, parce qu'elles sont placées lors de l'assemblage.

[EN]

This delicate tulip-shaped spot is perfect for the introduction of several little accents in your interior. The soft beams of light give a beautiful contrast between light and shade. These contrasts provide an effective atmosphere, just like using lots of little lampshades or candles. It is advisable to order enough spotlights, because one 20 Watt lamp gives 2.5 times less light than a standard 50 Watt lamp. The entire Fleure collection can be optionally fitted with Narcissus leaves. These should be ordered at the same time, because they are fitted at the point of assembly.

[DE]

Dieser feine, tulpenförmige Spot ist ideal um in Ihrer Einrichtung mehrere kleine Akzente zu schaffen. Dank der Lichtbündel entstehen sehr schöne Kontraste zwischen hell und dunkel. Diese Kontraste sorgen für die starke Stimmung, vergleichbar mit vielen kleinen Lampenkappen oder Kerzen. Es wird jedoch empfohlen ausreichend Spots zu nehmen, denn 1 Lampe von 20 Watt erzeugt 2,5 mal weniger Licht als eine Standardlampe von 50 Watt. Die vollständige Fleur-Kollektion kann optional mit den Narcisse-Blättern ausgestattet werden. Sie müssen jedoch zusammen bestellt werden, da sie bei der Montage mit angebracht werden.
