Spot Comète

[NL]

Deze komeetvormige spot voegt een speels tintje toe aan uw interieur. De Comète is een spot op een beugel met scharnieren, die de volledige lamp en lamphouder omhult. De BA15D lamphouder wordt gevoed door een gestoffeerde getwiste kabel. De AR70-spot sluit mooi aan in de Comète en heeft een antiverblindende afscherming voor de lichtbron. Dit type lamp zorgt ervoor dat het licht mooi accentueert met een minimum aan verblinding. Dankzij de keuze in wattage en bundelrichting kan u het licht helemaal afstemmen op de gewenste sfeer. De Comète is verkrijgbaar als 12V-lamp halogeen of als kleinere gewone GU10 LED op 220V.

[FR]

Ce spot en forme de comète ajoute une touche ludique à votre intérieur. La Comète est un spot placé sur un support articulé qui soutient l'entièreté de la lampe. La lampe BA15D est alimentée par un câble torsadé rembourré. L'ampoule AR70 convient bien au Spot Comète et elle dispose d'un écran anti-éblouissement. Ce type de lumière accentue bien la lumière, tout en réduisant l'éblouissement au minimum. Le réglage de la puissance et de la direction du faisceau lumineux permet d'obtenir aisément l'atmosphère souhaitée. La Comète est disponible en 12V halogène ou en LED GU10 pour le 220V.

[EN]

This comet-shaped spotlight adds a playful touch to your interior. Comète is a spotlight on an arm with hinges that covers the entire lamp and holder. The BA15D lampholder is fed by a fabric cable. The AR70 spot fits beautifully in the Comète and has an anti-glare shield for the light source. This type of lamp ensures that light is beautifully accentuated with minimum glare. Thanks to the optional wattage and beam you can completely adjust the light to the required atmosphere. Comète is available as 12V halogen lamp or as smaller normal GU10 LEDs at 220V.

[DE]

Dieser kometenförmige Spot verleiht Ihrer Einrichtung einen spielerischen Akzent. Der Comète ist ein Spot auf einem Bügel mit Scharnieren, der die gesamte Lampe und die Lampenhalterung umfasst. Der BA15D-Lampenhalter wird über ein gepolstertes, gedrehtes Kabel gespeist. Der AR70-Spot passt perfekt in den Comète und hat einen Blendschutz für die Lichtquelle. Dieser Lampentyp sorgt dafür, dass das Licht mit nur minimaler Blendung schön akzentuiert. Dank der unterschiedlichen Wattleistung und Bündelrichtung können Sie das Licht vollkommen auf die gewünschte Atmosphäre abstimmen. Comète ist als 12V-Lampe Halogen oder als kleinere normale GU10 LED mit 220V erhältlich.
